

# The D.C. Explorer Campaign is Now A Mission Accomplished!

Thank you to all of our partners who made this campaign such a massive success. Together we were able to encourage well over 2,000 kids to get engaged, active and excited about history and nature in D.C., Maryland and Virginia.

## BIG ROUND OF APPLAUSE TO:

"Working as a team in the D.C. area was both fun and productive. Ideas were shared. Participants at each mission site learned about other fun places to be active and learn. And we became excited when we found others who understood our belief that technology can be harnessed and made to be an effective tool – that it isn't always the enemy of connecting kids with nature."

**Derrick Crandall, President, Outdoor Recreation Roundtable**

"The D.C. Explorer Campaign was incredibly fun to be a part of. It was great to see so many kids outside, exploring and learning about trees and nature!"

**Scott Aker, Head of Horticulture and Education, U.S. National Arboretum**

"There are so many amazing places to explore and such rich history in D.C., Maryland and Virginia. We created the D.C. Explorer Campaign with our partners to encourage kids, and by extension their parents, to enjoy what these sites have to offer."

**Mary Clark, CEO, Agents of Discovery**

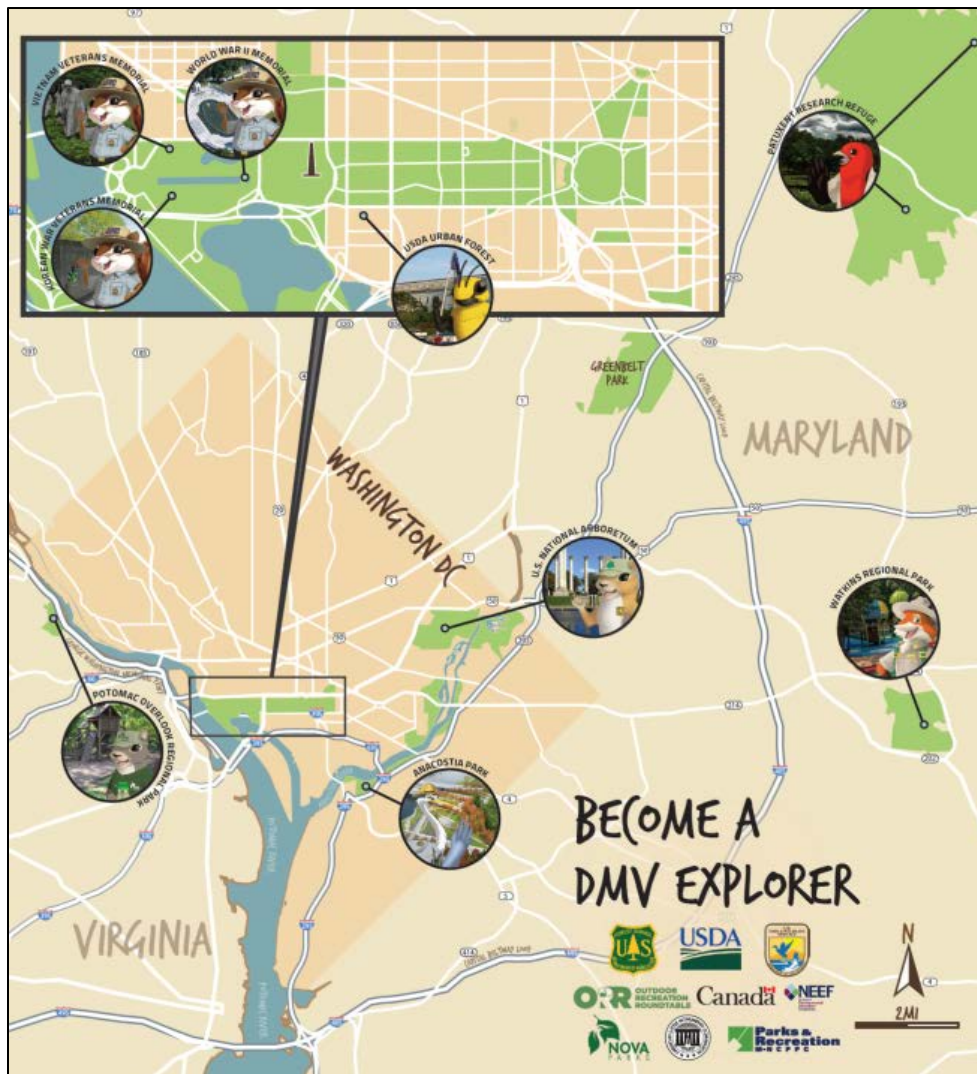

**ORR** OUTDOOR RECREATION ROUNDTABLE

Agents of Discovery's **D.C. Explorer Campaign** ran June 7 – November 1, 2018, and involved nine locations across D.C., Maryland and Virginia. Public and private partners from the federal, state and local levels came together to encourage thousands of kids to engage with history and nature in the nation's capital.

Sites included:

- U.S. National Arboretum
- USDA Urban Forest
- Watkins Regional Park
- World War II Memorial
- Korean War Veterans Memorial
- Vietnam Veterans Memorial
- Patuxent Research Refuge
- Anacostia Park
- Potomac Overlook Regional Park

**Agents of Discovery** – is an educational mobile gaming platform that uses augmented reality to get youth active outdoors. They empower educators in all sectors to turn the whole world into an engaging, fun, and safe learning environment. Educators use their online platform, the Mission Maker, to design their own games. These games (Missions) are then published to the Agents of Discovery app and available from the App and Play stores. Missions are free to play and, once downloaded, do not require WiFi or a data connection. Learn more at [www.agentsofdiscovery.com](http://www.agentsofdiscovery.com).
