Representative Don Young
Ranking Member, Subcommittee on National Parks, Forests and Public Lands
U.S. House of Representatives Committee on Natural Resources
2314 Rayburn House Office Building
Washington, D.C. 20515

Dear Chair Haaland and Ranking Member Young:

The Outdoor Recreation Roundtable is the nation's premier coalition of outdoor recreation trade associations comprised of 28 members and representing more than 50,000 businesses. The outdoor business community thanks you for your attention to the *Recreation Not Red-Tape Act (H.R. 3458)* and *Simplifying Outdoor Access for Recreation Act (H.R. 3879)*, and strongly support quick passage of these bills. These important pieces of legislation are supported by businesses and nonprofits across the industry and will help ensure the continued growth of this vibrant sector.

Outdoor recreation is a major economic force in America, accounting for 2.2 percent of the economy, supporting 4.5 million jobs - many of them in rural areas - and contributing \$734 billion in economic output, surpassing other sectors such as agriculture, petroleum, coal, and computer and electronic products.

As the popularity and impact of this industry continues to grow, federal agencies need updated tools to provide sustainable and improved access to, and infrastructure on, America's public lands and waters. The *Recreation Not Red-Tape Act* removes barriers and offers sensible, 21st century proposals for identifying and appropriately managing our unparalleled outdoor recreation assets now and into the future.

The *Simplifying Outdoor Access for Recreation Act* expands access to outdoor experiences by improving outfitter and guide permitting systems. This legislation simplifies processes, increases flexibility in allowed activities, improves fee collection procedures and much more. All these provisions - supported by members of the outdoor industry and conservation community - will positively impact a wide range of organizations that deliver facilitated recreation experiences, including for-profit and non-profit guides and outfitters, university recreation programs and volunteer-based clubs.

Thank you for your consideration and we hope to work with you on swift passage of these bills through committee. We look forward to continuing to work with you to ensure all Americans have access to recreation experiences on their public lands and waters and that all communities benefit from the growing recreation economy.

Sincerely,
